

ARMENIAN DRIVE NETS \$5,000 IN FIRST DAY

Biggest Contributor Thursday Was Oil Company With \$1,000; Another Gives \$500.

MORE WORKERS ARE NEEDED

Out of 1,200 Who Volunteer, 100 Reported for Active Campaign Report at Noon Luncheon.

Reports from the Armenian Relief Drive inaugurated this morning show that one company in the city gave \$1,000, another \$500 and the one which was up per cent with both employees and employer gave another \$500.

The luncheon served to 125 workers at noon Thursday in the First M. E. church, a report of 15,000 obtained, it was stated by G. Reufus, city chairman. The luncheon was opened with very courtesy in their case and practically everyone gave something willingly.

As well as more workers was received by the county chairman, Rev. J. W. Abel, who stated that out of an organization of 1,200 residents, 100 were in the city, Tulsa, gas money. It is his opinion that if there are sufficient workers to be had, the people there would have been no trouble in raising the assessment of \$100,000 in one day.

Telegrams were sent to a number of Tulsa citizens who are out of town, asking that they subscribe to the Armenian relief drive. Post office receipts in America last week stated that a large number of photographs taken in Armenia, showing piles of skulls and skeletons, and pictures of deformed children and tortured women, have been collected by Rev. Samuel T. Parker of Toronto, a member of the committee which penetrated into Eastern Turkey, and who is at present in that country.

"At first," Mr. Parker said, "I saw a deep well filled with skulls of dead Armenians. There must have been several thousand of them. At Malatia there is a pit containing thousands of skeletons. A little girl was told by the Turks that her father and other men had been tortured and killed them. The Turks also took all the babies in the town and threw them into the river until it overflowed its banks." Continued Rev. Parker's report.

"They let out the priests, put red hot iron shoes on their feet and forced them to walk long distances. The finger and toe nails of the priests were pulled out, and the priests finally were compelled to say the rites over the dead, while the Turks looked on and laughed and mocked. At other places they pulled out the hearts of the priests and tortured them until they died from exhaustion."

Many Tulsa Go to Resorts. Tulsa residents are leaving in large numbers daily for Colorado for summer vacations and although the season has hardly begun a larger crowd than ever before is going out, according to J. S. Holloman, city passenger agent for the Santa Fe railroad. Regular car train every day is being full, including 25 cars which have been added to trains several times during the past week.

\$1,000 Suit Against City. Damages of \$1,000 were asked in a petition filed in district court Thursday by F. D. Ellis, 1727 south Main street against the city of Tulsa, the plaintiff alleging that through the failure of the city to provide proper water conduits through a street grade on Eighteenth street east of Main street, good water on June 7 entered his yard and dwelling, washing his furniture and clothing contained in the house, causing plaster to fall from the walls and left a deposit of slime and mud on most of his worldly possessions.

Do you get what you pay for?

Compare the Price of your Butter with the Weight

If you order a "pound of butter" and the carton reads, "net weight of contents 15 ounces", you don't get a full pound! And at current prices, you are paying more per ounce than you would pay for Armour's Cloverbloom—highest grade creamery butter. For, though you may pay a couple of cents more per package for Cloverbloom, every package is a full pound.

Armour's Cloverbloom BUTTER

It is hard to tell the difference between the 15-ounce carton of ordinary butter and the full pound of Cloverbloom butter. For the smaller package is reportioned throughout—a little taken off all sides and both ends. If it were all sliced in one place you would quickly notice it. To get that extra slice order Cloverbloom.

Read the Label

The law requires that the label on the package shall clearly state net weight of contents. If you're not getting 16

ounces packages, insist on Cloverbloom, because it's best quality.

Full Weight—Quality

Churned daily from pasteurized cream from the richest dairy sections in the country—wrapped in waxed parchment and air-tight cartons, Cloverbloom butter gives moistness, value and honest measure. The Oval Label guarantees this.

SPAVINAW

Cheer up, children, don't you cry for we're going to have good water soon and live.

Help our mama say to pa that he must vote for the Spavinaw.

Now what is the use for to sit and sigh.

For we'll have water when Shell creek's dry.

Please what is a little bit of lead and zinc?

To compare with that awful Shell creek stick?

Spavinaw flows through gravel all the time.

And Shell creek seeps through mud and sand.

Spavinaw water is good and pure.

And Shell creek will give you dysentery sure.

There is nothing in the Oklahoma law.

At this time, when we are still in the grip of orthodoxy and the English states are about to subdue us, our independence, our freedom from the encroaching thralldom of debt, our wealth, flowing in from our boundless crops and the minerals and oils of the earth, is as peculiarly appropriate and important to us as the freedom of the world.

Given under my hand with the seal of the state here this 20th day of June, A. D.
